ABOUT ME

I am a creative and enthusiastic software engineer, fascinated with front-end development and the web in general. I am well-versed in agile development and responsive design. I love trying new technologies and try new stuff.

SKILLS & PROFICIENCIES

- HTML/CSS 3
- Python
- JavaScript and TypeScript
- Dart/Flutter
- UI/UX design (Figma)
- Databases (Postgresql and Mongo)
- Rest API and GraphQL
- Git

CERTIFICATIONS

Google UI/UX certificate

Coursera

2022 September 6 - December 27

A certificate program comprising foundations of User experience design, conducting UX research, building Wireframes and low-fidelity prototypes, creating HI-FI designs and prototypes, and responsive web design.

WORK HISTORY

Junior front-end engineer

Kemer Habesha

July 2022 to Present

Partake in static landing pages and reactive dashboard using react, next.js, tailwindcss, material UI, and TypeScript.

PROJECTS

Portfolio Website

July 2022 to Present

- design and prototype are done using **Figma**.
- **Next.js**, **react** and **tailwindCSS** are used to materialize the design.

Food Ordering App - UI Design

Nov 22 - Dec 3, 2022 to Present

- As part of the Google UI/UX certificate program, I conducted interviews, created **empathy maps** and **user personas**, created **Wireframes**, conducted **usability studies** and developed **HI-FI prototype**.

Customer Reviews app

December 2022 to Present

- Utilized **TypeScript**, **Express.js**, and **PostgreSQL** to create a restful API.
- **Flutter** is used to create the cross-platform mobile app.

EDUCATIONAL BACKGROUND

Addis Ababa University

Addis Ababa, Ethiopia

Bachelor's Degree in Software engineering

2019 - 2024
